Flutter Installation and Step

- Open the google chrome
- Go to the flutter website (https://flutter.dev/doc) and download the flutter for the windown operating system
- Extract the zip file to the directory of your choice

Install Android Studio:-

- Download and install Android studio
- Follow the installation instruction to install Android studio

Install Android Emulator

Open Android studio

Go to Tools >Android> AVD manager.

Click "Create Virtual device" and follow the prompt to create a new Android Virtual device.

Install Flutter Plugin:-
1) Open android studio
2) Go the settings > Plugins
3) Search for "Flutter" and install Flutter plugin

Step up Android Emulator:-

Go to the tools > Android > AVD manager
Select the AVD you created earlier
Click "Start" to lunch the Android emulator.

Verify Flutter Installation:
Open a terminal or

command prompt
- Navigate to the directory where you extracted the flutter SDK
- Run "flutter doctor" to verify that flutter is installed correctly ✓

Create a New Flutter object:-
Open Android studio
Go to File > New > New Flutter >
AVD
Follow the prompts to create a New Flutter project

You should now have Flutter installed and set up with Android studio and android emulator.
